Emergency Water Mobile Response Unit

After seven years of researching and testing, they have invented, designed, engineered, and manufactured a cutting edge Emergency Water Mobile Response Unit.

This mobile custom designed and manufactured unit delivers pure drinking water from any water source, no matter how contaminated. It is created to meet the specific needs of your water.

Ernie Wilmink, President of "The Key" Water & Air International Inc., a Lindsay, Nebraska Corporation, has over 35 years of experience and knowledge in water treatment technology.

Arkfeld Manufacturing and Distribution Company of Norfolk, Nebraska has been proudly servicing and building in America since 1917. Their track

record reflects outstanding manufacturing performance.

Every minute 3.5 children die world wide due to inadequate drinking water.

You can save lives.

Whether it is a natural disaster or terroristic attack, this unit will protect the health of your residents and water system for years to come.

Unit Checklist

One mobile unit produces 21,000 gallons of clean drinking water per day. **This is equal to 5,760 (20 oz.) bottles of sparkling water per hour.**

It is self contained in a heated/cooled insulated dual axle trailer which is equipped with:

- ◆ Generator
- ◆ Goulds Self Priming Pump
- ◆ Goulds Aquaboost Pump
- ◆ Variable Speed Constant Pressure System
- ◆ Laboratory Facilities
- ◆ Portable Mobile Ozone Disinfection System

Chemicals Reduced

This unit supersedes the required health code standards for Maximum Contaminant Level Goal (MCLG) & Maximum Contaminant Level (MCL). It removes or reduces to safe levels ALL (known at this point in the world) of the following contaminants:

- ◆ Bacteria
- ◆ Viruses
- ◆ Cysts
- ◆ O-Cysts
- ◆ Organics
- ◆ Inorganics
- ◆ Chemicals

Unlocking Your Water Potential
